Tantric Numerology is different from most numerology books. We won't be dealing with a lot of numbers or formulas. Our first book, Numerology for Self Mastery, presents the ten bodies in a very personal way. A good way to begin your study of the ten bodies would be to familiarize yourself with the information in the first book. It explains how to calculate the numerology hidden in the day of your birth. Your birth numbers describe your preliminary destiny in terms of the ten bodies. Expanding yourself beyond those first studies of numerology into actually applying the technology to cause positive change using all ten bodies will give you the capacity to re-write your destiny. This is the intention for Tantric Numerology. This second book looks at the expressions of each of the ten bodies so you can learn how to integrate and coordinate each body consciously. These bodies are the yogic description of what the fully expressed human being feels and acts like. The practical part of it is that anyone can achieve this state of realization - it just takes applying your awareness. You don't need to belong to any organized anything to express your potential. Knowing your personal numbers will allow you to harmonize your soul's expression. Our premise is that the soul has lessons to integrate and gifts to express this lifetime. With an awareness of your soul's journey you can manifest your specific expression. Learning how to express the potential of your ten bodies will give you the ability to live beyond the drama of your karma, (polarities) so you can fulfill your Purest Potential. These two books are the foundation for you to learn how to bring yourself completely present in your own life in a harmonic way.
