Launched on *Oxford Medicine Online* in 2012, with the full-text of eight *Mayo Clinic Scientific Press* (MCSP) print titles and a bank of multiple-choice questions, *Mayo Clinic Toolkit* provides a single location for resident, fellow, and practicing clinicians to undertake the self-testing necessary to prepare for, and pass, the Boards.

The *Mayo Clinic Atlas of Regional Anesthesia and Ultrasound-Guided Nerve Blockade* is a practical guide that vividly illustrates a systematic approach to regional anesthesia of the upper and lower extremity while providing a comprehensive overview of the fundamental principles of ultrasonography, relevant Sonoanatomy of the upper and lower extremity, and the technical skills necessary to become clinically proficient at ultrasound-guided regional anesthesia. With over 200 beautifully illustrated anatomic images that can be enlarged and downloaded to PowerPoint, the online version is essential reading for Board Exam preparation.

Highlights of *The Mayo Clinic Toolkit* include:

- Each title is presented in an enhanced format, allowing the enlargement and download of all figures and images, and linking to external sources referenced in the text.
- The multiple-choice questions are designed to mirror those in the Board exam for realistic preparation; they also link back to the relevant title, and allow the user to measure their development through the recording of practice-exam success.
- It can be accessed on a range of internet enabled devices, giving residents, fellows, and practicing clinicians the choice to study in locations which suit them
- Subscription lengths range from 1-month to a full year.

Combining two complimentary resource types into a single location, with enhancements to the print works, the flexibility to choose where and when to study, and the ability to monitor revision progress, *Mayo Clinic Toolkit* is truly the go-to site for Board preparation.
