Military Flash Spider Webb
Hundreds of anchors, exotic dancers, angry daggers, and patriotic decorations are shown that adorned the flesh of veterans returning from the world wars. This collection of historic flash boards is a tribute to those who served their countries; a sentimental look at body art available in the early 20th Century; and an exciting examination of bold designs that have stood the test of time. This book invites you to peruse an exhibition wartime art from the turn of the century through World War II; art that is enjoying increasing popularity on today's young crop of skin canvas. Perforated pages allow you to remove pages and hang them on the wall of your studio.
