ROBOTIC VISION: An Approach for Face Localization & Recognition Dr Qaim Mehdi
The technology, which is based on intelligence, is the future of science. A good intelligence system can be built with the smart sensing and a good knowledge base. Over the last decade, the face recognition is getting a high attention. Due to the natural behavior, face is the most meaningful part of the human body. It can be easily observed through same technique. Face localization method should be simple, efficient and accurate. Different face localization techniques are available right now.
