Social Science Research: A Cross Section of Journal Articles for Discussion and Evaluation Turner C Lomand

• This new edition gives students valuable practice in reading and evaluating research. All major methods of research are illustrated, including qualitative research, content/document analysis, survey research, observational research, experimental research, and program evaluation.

• The articles deal with contemporary topics that will hold your students' attention.

• The lines in each article are sequentially numbered. This allows easy reference to specific parts of the articles during classroom discussions.

• Factual Questions at the end of each article encourage students to read for methodological and substantive points.

• The Answer Key provides answers to the Factual Questions. The line numbers where the answers can be found are included, making the key easy to use.

• The Questions for Discussion at the end of each article address broad issues of research design and overall research quality.

• Ideal for homework assignments followed by classroom discussions at the next class meeting.
