In commemoration of the fiftieth anniversary of the Korean War, the official history offices of the U.S. Army, Navy, Marine Corps, and Air Force and their respective historical associations collaborated to sponsor as comprehensive a symposium as possible, including as participants some of the coalition partners who contributed forces and weapons to the war. The intent of this symposium, titled Coalition Air Warfare during the Korean War, 1950 -1953, was to focus not only on the contributions made by the armed forces of the United States, but also on those of America's allies. The diverse group of panelists and speakers included not only scholars with subject matter expertise, but also veteran soldiers, sailors, and airmen who had served in that conflict. It was hoped that the melding of these diverse perspectives would provide interesting, if sometimes conflicting, views about the Korean War. The symposium organizers designated an agenda of six specific panels for investigation, including Planning and Operations; Air Superiority, Air Support of Ground Forces; Air Interdiction and Bombardment, Air Reconnaissance and Intelligence, and Logistical Support of Air Operations. Each session began with commentary by the panel chairman, which was followed by formal papers, and in some instances included a lively question and answer session. The papers and most of the proceedings found their way into print and are recorded here in an effort to permanently capture the activities, challenges, contributions, and heroics of the coalition air forces and the airmen who fought during the Korean conflict.
