The Gates of Horn: A Study of Five French Realists

Harry Levin

The Gates of Horn: A Study of Five French Realists Harry Levin
"The author explores this tradition in depth and defines it with a breadth of vision, a dynamic vigor and freedom rarely paralleled today....His method, flexible, generous, humane in the best sense of the word, eschews pedantry, dogma, useless theorizing and scholastic argumentation."--The New York Times Book Review. "I wish to make it clear that The Gates of Horn represents an outstanding critical accomplishment."--Saturday Review. In the Odyssey, Homer describes two gates of the imagination: one of ivory through which fictitious dreams pass, and the other of horn, through which nothing but the truth may pass. Realism is the type of literature that passes through the horn, and in this significant study of the genre Levin examines a major form of Realism--the French novel--and focuses on five of its masters--Stendahl, Balzac, Flaubert, Zola, and Proust. Now available in paperback, Levin's study is a veritable reconstruction of the artistic and intellectual life of a nation.
