Aircraft Modelling (Modelling Masterclass)

Brett Green

Aircraft Modelling (Modelling Masterclass) Brett Green

The aircraft modeling hobby has undergone dramatic changes in the last ten years. New manufacturing technologies and the rise of China have combined to make this a golden age in terms of the variety and availability of models. But these advancements can also make the hobby intimidating for those starting out.

In this new edition in Osprey's Masterclass series, Brett Green describes the kits, accessories, decals and references that are now available and demonstrates a wide variety of paint types, thinners and application methods in both words and pictures. He also covers painting effects such as mottling, soft-edged camouflage demarcation, masking and weathering. This is the perfect book for the beginner and the seasoned modeler alike.
