Baccarat Gold: Investment Strategies For High Returns J T McCarthy, T L Vaughan
This is a book about investing in a game called Baccarat. It involves a disciplined approach to gambling with the aim of earning a living, not beating the casinos. The strategies shown in this book are easily understood and applied. They do not use endless and seriously risky negative betting progressions to overcome losses. What they do is provide the reader with short, in/out, betting scenarios that predictably build wealth with minimal risk to the buy-in. Most of the research and strategy compilation was performed by a commerical real estate investor and financial consultant, not a gambler! Our philosophy is to establish daily win/loss goals, play daily on tables with low bet minimums until proficient and then increase the bet minimums as the bank roll increases - the secret to casino gaming wealth. Buyers of this book also receive 50 downloadable Baccarat practice shoes (over 700 hands) that can be used over and over to hone their playing skills. If you are a Baccarat Player or wish to become one and would like to make a a full or part time living as a Baccarat Investor, then this book is for you. And, it doesn't end here! The last chapter of the book offers you access to an online back office and a research team dedicated to the continuing development of investment strategies based on existing and newly developed strategies and presented through online training sessions. May your Baccarat game never be the same!
