The present volume provides for the long-felt need for a new critical edition of, and a full commentary on the Assumption of Moses, a Palestinian Jewish pseudepigraphon from the first century A.D. The book consists of four parts: I. Critical edition; II. Description of the Latin used in the text; III. The history of research on As. Mos., including the author's conclusions with regard to the literary-historical questions; IV. Detailed commentary. A bibliography and indices complete the book. This edition and commentary greatly enhance the accessibility of one of the most important witnesses of first-century Judaism, the matrix of earliest Christianity.
