Sea-Bed Energy and Minerals:The International Legal Regime

E. Brown

Sea-Bed Energy and Minerals:The International Legal Regime E. Brown
This three-volume work is concerned with the rules of international law governing the exploitation of the energy and mineral resources to be found on and under the sea-bed.
Volume 3 complements the previous two volumes by making available a selection of the principal documents referred to in volume 1 "The" "Continental Shelf" and volume 2 "Sea-Bed Mining." The documents are arranged in three Parts. Part 1 includes document on the continental shelf and the exclusive economic zone; Part 2 covers the United Nations regime for the Area beyond the limits of national jurisdiction, including the landmark Mining Code adopted in July 2000; and Part 3 has a selection of national legislation on sea-bed mining and related co-ordinating treaties. Also included is a table showing the status, as at 1 October 2000, of the UN Convention on the Law of the Sea, 1982 and the 1994 Agreement relating to the Implementation of the UN Convention.
This volume will be a useful practical tool for academics, practitioners, and policy-makers concerned with the legal regime governing sea-bed energy and minerals and presents a carefully selected set of documents indispensable for a full understanding of the regimes analysed in the earlier volumes.
