Based on the Speech Plasma Method, this book is designed to help students of English speak on a variety of topics at a very early stage. All the topics contain the same elementary English grammar structures, so that the students could use them again and again. The stories are based on 600 words and are told in a simple way.
The series is based on the Speech Plasma Method. The Speech Plasma Method uses special Speech Fluency Drills to generate a super active area, “speech plasma”, thus producing all the necessary conditions for spontaneous, automatic speech.
Once created in your mind, speech plasma acts as a stimulator for further language learning. The bigger and stronger your speech plasma grows, the more fluently you speak, the easier it is to absorb new words and grammar rules, the faster you read, and the better you understand oral texts.
