The Natural History of Monitor Lizards

Harold F. De Lisle

The Natural History of Monitor Lizards Harold F. De Lisle
Unique among lizards, the monitors are in some ways more like birds and mammmals than like their smaller and less-active relatives. Their size and behaviour have long made them objects of fascination and myth wherever they are found. The Komodo Dragon, the world's largest lizard, is a central tourist attraction in Indonesia. This text provides information on the anatomical and physiological traits that have made the varanids such successful and spectacular animals. It deals with the lizard's ecology and behaviour, and includes a description, range map, diet, conservation status, and life history notes for each species, along with almost 200 references on varanid lizards. General guidelines for captive care are included. The book contains essential information for the professional herpetologist, dedicated pet owner, and reptile enthusiast.

From reader reviews:

Roger Dupre:

In this 21st millennium, people become competitive in each way. By being competitive right now, people have do something to make these people survives, being in the middle of typically the crowded place and notice by means of surrounding. One thing that often many people have underestimated this for a while is reading. Yeah, by reading a e-book your ability to survive increase then having chance to stay than other is high. For you who want to start reading some sort of book, we give you this kind of The Natural History of Monitor Lizards book as nice and daily reading reserve. Why, because this book is more than just a book.

Thomas West:

As people who live in the actual modest era should be upgrade about what going on or facts even knowledge to make these people keep up with the era and that is always change and make progress. Some of you maybe will update themselves by reading through books. It is a good choice for yourself but the problems coming to you actually is you don't know what kind you should start with. This The Natural History of Monitor Lizards is our recommendation to cause you to keep up with the world. Why, because this book serves what you want and need in this era.

Crystal Parrish:

A lot of people always spent their own free time to vacation or even go to the outside with them family or their friend. Were you aware? Many a lot of people spent many people free time just watching TV, or perhaps playing video games all day long. In order to try to find a new activity that's look different you can read a new book. It is really fun in your case. If you enjoy the book that you simply read you can spent all day every day to reading a e-book. The book The Natural History of Monitor Lizards it is quite good to read. There are a lot of those who recommended this book. These people were enjoying reading this book. When you did not have enough space to develop this book you can buy typically the e-book. You can m0ore easily to read this book through your smart phone. The price is not too costly but this book provides high quality.

Eliza Gold:

As a student exactly feel bored to reading. If their teacher asked them to go to the library in order to make summary for some guide, they are complained. Just small students that has reading's soul or real their passion. They just do what the teacher want, like asked to the library. They go to right now there but nothing reading critically. Any students feel that studying is not important, boring and also can't see colorful pictures on there. Yeah, it is to get complicated. Book is very important for yourself. As we know that on this time, many ways to get whatever we would like. Likewise word says, many ways to reach Chinese's country. Therefore , this The Natural History of Monitor Lizards can make you feel more interested to read.
