Professional C++ Marc Gregoire
Master complex C++ programming with this helpful, in-depth resource

From game programming to major commercial software applications, C++ is the language of choice. It is also one of the most difficult programming languages to master. While most competing books are geared toward beginners, *Professional C++, Third Edition,* shows experienced developers how to master the latest release of C++, explaining little known features with detailed code examples users can plug into their own codes. More advanced language features and programming techniques are presented in this newest edition of the book, whose earlier editions have helped thousands of coders get up to speed with C++. Become familiar with the full capabilities offered by C++, and learn the best ways to design and build applications to solve real-world problems.

Professional C++, Third Edition has been substantially revised and revamped from previous editions, and fully covers the latest (2014) C++ standard. Discover how to navigate the significant changes to the core language features and syntax, and extensions to the C++ Standard Library and its templates. This practical guide details many poorly understood elements of C++ and highlights pitfalls to avoid.

- Best practices for programming style, testing, and debugging
- Working code that readers can plug into their own apps
- In-depth case studies with working code
- Tips, tricks, and workarounds with an emphasis on good programming style

Move forward with this comprehensive, revamped guide to professional coding with C++.

From reader reviews:

Mildred Parker:

Do you certainly one of people who can't read pleasurable if the sentence chained from the straightway, hold on guys this aren't like that. This Professional C++ book is readable by simply you who hate those straight word style. You will find the details here are arrange for enjoyable examining experience without leaving possibly decrease the knowledge that want to provide to you. The writer of Professional C++ content conveys prospect easily to understand by many individuals. The printed and e-book are not different in the content but it just different available as it. So , do you still thinking Professional C++ is not loveable to be your top listing reading book?

Robert Hawkins:

Reading a guide tends to be new life style with this era globalization. With examining you can get a lot of information that may give you benefit in your life. Having book everyone in this world may share their idea. Publications can also inspire a lot of people. A great deal of author can inspire their particular reader with their story or even their experience. Not only the storyplot that share in the ebooks. But also they write about the information about something that you need case in point. How to get the good score toefl, or how to teach your children, there are many kinds of book which exist now. The authors on earth always try to improve their talent in writing, they also doing some exploration before they write for their book. One of them is this Professional C++.

Cathrine Hart:

Exactly why? Because this Professional C++ is an unordinary book that the inside of the reserve waiting for you to snap the item but latter it will jolt you with the secret the item inside. Reading this book beside it was fantastic author who write the book in such remarkable way makes the content inside easier to understand, entertaining means but still convey the meaning fully. So , it is good for you because of not hesitating having this ever again or you going to regret it. This phenomenal book will give you a lot of positive aspects than the other book get such as help improving your proficiency and your critical thinking way. So , still want to hold off having that book? If I were you I will go to the guide store hurriedly.

Lynda Alford:

Do you like reading a e-book? Confuse to looking for your chosen book? Or your book has been rare? Why so many question for the book? But just about any people feel that they enjoy with regard to reading. Some people likes reading, not only science book but novel and Professional C++ as well as others sources were given understanding for you. After you know how the truly amazing a book, you feel want to read more and more. Science reserve was created for teacher or maybe students especially. Those publications are helping them to bring their knowledge. In other case, beside science guide, any other book likes Professional C++ to make your spare time a lot more colorful. Many types of book like this.
