Financial Accounting

Thomas Dyckman

Financial Accounting Thomas Dyckman
Welcome to the fifth edition of Financial Accounting and, to adopters of the first four editions, thank you for the great success those editions have enjoyed. We wrote this book to equip students with the accounting techniques and insights necessary to succeed in today's business environment. It reflects our combined experience in teaching financial accounting to college students at all levels. For anyone who pursues a career in business, the ability to read, analyze, and interpret published financial reports is an essential skill. Financial Accounting is written for future business leaders who want to understand how financial statements are prepared and how the information in published financial reports is used by investors, creditors, financial analysts, and managers. Our goal is to provide the most engaging, relevant, and accessible textbook available. Financial Accounting is intended for use in the first financial accounting course at either the under-graduate or graduate level; one that balances the preparation of financial statements with their analysis and interpretation. This book accommodates mini-courses lasting only a few days as well as extended courses lasting a full semester.Financial Accounting is real-world oriented and focuses on the most salient aspects of accounting. It teaches students how to read, analyze, and interpret financial accounting data to make informed business decisions. To that end, it consistently incorporates real company data, both in the body of each chapter and throughout the assignment material.
