Mastering Metasploit - Second Edition

Nipun Jaswal

Mastering Metasploit - Second Edition Nipun Jaswal

Key Features

- Gain the skills to carry out penetration testing in complex and highly-secured environments
- Become a master using the Metasploit framework, develop exploits, and generate modules for a variety of real-world scenarios
- Get this completely updated edition with new useful methods and techniques to make your network robust and resilient

Book Description

Metasploit is a popular penetration testing framework that has one of the largest exploit databases around. This book will show you exactly how to prepare yourself against the attacks you will face every day by simulating real-world possibilities.

We start by reminding you about the basic functionalities of Metasploit and its use in the most traditional ways. You'll get to know about the basics of programming Metasploit modules as a refresher, and then dive into carrying out exploitation as well building and porting exploits of various kinds in Metasploit.

In the next section, you'll develop the ability to perform testing on various services such as SCADA, databases, IoT, mobile, tablets, and many more services. After this training, we jump into real-world sophisticated scenarios where performing penetration tests are a challenge. With real-life case studies, we take you on a journey through client-side attacks using Metasploit and various scripts built on the Metasploit framework.

By the end of the book, you will be trained specifically on time-saving techniques using Metasploit.

What you will learn

- Develop advanced and sophisticated auxiliary modules
- Port exploits from PERL, Python, and many more programming languages
- Test services such as databases, SCADA, and many more
- Attack the client side with highly advanced techniques
- Test mobile and tablet devices with Metasploit
- Perform social engineering with Metasploit
- Perform attacks on web servers and systems with Armitage GUI
- Script attacks in Armitage using CORTANA scripting

About the Author

Nipun Jaswal is an IT security business executive & a passionate IT security Researcher with more than 7 years of professional experience and possesses knowledge in all aspects of IT security testing and implementation with expertise in managing cross-cultural teams and planning the execution of security needs beyond national boundaries.

He is an M.tech in Computer Sciences and a thought leader who has contributed in raising the bar of understanding on cyber security and ethical hacking among students of many colleges and universities in India. He is a voracious public speaker, delivers speech on Improving IT Security, Insider Threat, Social Engineering, Wireless forensics, and Exploit writing. He is the author of numerous IT security articles with popular security magazines like Eforensics, Hakin9, and Security Kaizen etc. Many popular companies like Apple, Microsoft, AT&T, Offensive Security, Rapid7, Blackberry, Nokia, Zynga.com and many others have thanked him for finding vulnerabilities in their system. He has also been acknowledged with the Award of excellence from National cyber defense and research center (NCDRC) for his tremendous contributions to the IT security industry.

In his current profile, he leads team super specialists in cyber security to protect various clients from Cyber Security threats and network intrusion by providing necessary solutions and services. Please feel free to contact him via mail at mail@nipunjaswal.info

From reader reviews:

Mary Deemer:

Reading a reserve tends to be new life style with this era globalization. With examining you can get a lot of information that could give you benefit in your life. With book everyone in this world can certainly share their idea. Books can also inspire a lot of people. Plenty of author can inspire their very own reader with their story or even their experience. Not only situation that share in the guides. But also they write about the data about something that you need illustration. How to get the good score toefl, or how to teach your kids, there are many kinds of book which exist now. The authors these days always try to improve their expertise in writing, they also doing some research before they write on their book. One of them is this Mastering Metasploit - Second Edition.

Christopher Morton:

The reason why? Because this Mastering Metasploit - Second Edition is an unordinary book that the inside of the book waiting for you to snap it but latter it will shock you with the secret this inside. Reading this book alongside it was fantastic author who have write the book in such awesome way makes the content inside of easier to understand, entertaining way but still convey the meaning totally. So , it is good for you for not hesitating having this any more or you going to regret it. This phenomenal book will give you a lot of rewards than the other book have got such as help improving your skill and your critical thinking technique. So , still want to hold off having that book? If I have been you I will go to the book store hurriedly.

Roberta Swinton:

Many people spending their time frame by playing outside using friends, fun activity with family or just watching TV all day long. You can have new activity to enjoy your whole day by studying a book. Ugh, ya think reading a book will surely hard because you have to bring the book everywhere? It okay you can have the e-book, delivering everywhere you want in your Cell phone. Like Mastering Metasploit - Second Edition which is obtaining the e-book version. So , why not try out this book? Let's see.

Michele Fernandez:

Do you like reading a e-book? Confuse to looking for your selected book? Or your book had been rare? Why so many query for the book? But any kind of people feel that they enjoy regarding reading. Some people likes reading through, not only science book but novel and Mastering Metasploit - Second Edition or others sources were given understanding for you. After you know how the good a book, you feel desire to read more and more. Science book was created for teacher or even students especially. Those guides are helping them to include their knowledge. In additional case, beside science book, any other book likes Mastering Metasploit - Second Edition to make your spare time far more colorful. Many types of book like this.
