Studying The Lord of the Rings (Studying Films)

Anna L. Dawson

Studying The Lord of the Rings (Studying Films) Anna L. Dawson

Unquestionably the first cinematic phenomenon of the twenty-first century, Peter Jackson's trilogy was a project of enormous artistic vision and financial risk. It is also a rich text for those studying film and media, perhaps for the first time. *Studying* The Lord of the Rings is the first book to consider the films in these terms, looking in turn at each of the major concepts: their complex origins and narrative structure; issues of representation masculinity, femininity and race; their generic patterns (to which genre do the films belong?) and thematic concerns; their industrial context from theatrical release to DVD extended editions; film language fusing classical mise-en-scène with cutting-edge technological practice. The aim throughout is to highlight critical debates and key terms, to relate these to the texts and to explore their stylistic and cultural impact. This *Student Edition* (a previously published *Instructor's Edition* is available) brings the story up to date with reflections on *The Hobbit* films.
