This lesson on Heart Surgery Patients includes a complete training packet. Each in-service packet takes approximately one hour to complete and fully meets the Medicare in-service training requirements. As aides need training, you can make as many copies as you want - there s no restriction when used with aides assigned from your office location. Remember that Home Health Aides must have 12 hours of in-service training every year. LESSON OBJECTIVES Upon completion of this program, the home health aide will be able to: Verbalize a basic knowledge of common surgical procedures of the heart List unique care considerations for heart surgery patients, and Explain the importance of reporting and documenting events regarding heart surgery patients. OVERVIEW Over 660,000 heart surgeries are performed each year to treat the more than 70 million Americans who are affected by cardiovascular disease (CVD). Home health aides may be assigned to care for patients recovering from heart surgery. Patients will have physical as well as mental limitations after surgery. They will require lifestyle changes. It is important for a home health aide to have a basic understanding of the most common heart surgeries and how to care for these patients so care can be effective. This in-service offers an overview of common heart surgeries and recommends methods for addressing the unique care needs of heart surgery patients.
