The Evolving Human Penny Kelly
The Evolving Human is the compelling true story of one woman's struggle with a sudden, spontaneous "awakening of kundalini," the ancient Eastern term for a massive awakening of the powers of consciousness. From the surprising beginning, through the confusing, sometimes life-threatening events that unfold, to its profound conclusion, it gradually becomes clear that the awakening of consciousness is the entry into true spiritual development. What is unexpected, however, is the fact that we are all designed and built to evolve in this way and that the evolution of human beings into truly spiritual creatures is a far more extensive and life-changing process than anyone may have suspected.
